

THE FIRE BOYS

Of Beacon and Posen Engine Companies

Give a Smoker Social to Their Friends.

Fourth of July Eve Spent in a

Couple of Hours of Amusement and Music and a Couple of Hours in Sampling of Solids and Fluids.

A Fire Engine Smoke.

On Wednesday evening, according to previous notice, Beacon and Posen engine companies of West Berkeley gave their friends a smoker. Notice of the same had been published in the GAZETTE and everybody in town knew of it. The consequence was that No. 1 engine house, although quite large, was hardly adequate for the number of people who put in an appearance. Had all come who desired to there would probably have been 200 persons in attendance.

Every thing was in good working order and after a general discussion upon the topics of the day T. McNamara was called to the chair and shortly had the meeting in order. Town Marshal Lloyd was called upon to make some remarks appropriate to the occasion. On stepping up to the chair he was loudly applauded, which caused a temporary blush to light upon his smiling countenance. With a clear voice he proceeded to give a short history of the fire department in Berkeley generally and of the Beacon and Posen Companies in particular. He stated that the Beacon Company was originally started in 1882 and after awhile, from the moving away of some of the members and some other causes, the company got quite run down.

About two years ago Frank J. O'Brien thought that it was highly necessary to have a well organized company at the West End and he called several meetings for the purpose of re-organization. It was not until the fifth meeting convened that there were sufficient present to go into a proper organization. The necessary work was done and S. H. Borkheim was elected chief, and still continues to hold the same position. He takes a great interest in the company and has got it into a position where it equals, if not surpasses, any other company now organized in Berkeley.

This is not said to make any particular distinction as the fire companies of this town compare very favorably indeed with any place of its number of residents upon the coast.

Posen Engine Company was organized about the same time that Beacon was the last time and its chief was chosen Chief of the whole department. The town purchased a chemical Engine for its use and the company is on hand when an alarm of fire is given.

Sam Fisher kept the members in first class humor when it came his

turn to contribute. The presiding officer, T. McNamara, gave a recitation and he did it in a manner that showed if he had made the stage a profession instead of the law he might have made a great success.

A West Berkeley quartette gave some very nice selections and were well applauded as were the trio of West Berkeleyans, Messes Murphy, Haverlin and Windrew who gave some first rate instrumental music with the violin, accordeon and guitar. Two young colored boys from San Francisco with a banjo and guitar interspersed the program with selections that amused and pleased those in attendance.

Not the least thing to make every thing pleasant and agreeable was the liberal production of solids and fluids. The party did justice to the fine lay out and at the end gave three rousing cheers and a tiger for the Beacons and the Posen.

These jollifications make good feelings in the community by bringing people together in a social way. When they have another smoker may we be there to join in the festivities.

Real Estate Transfers.

A. A. Fink to Henry W. Taylor, lots 13 and 14, block 12, tract B, Berkeley L. and T. I. Association.

Charles A. Windels to Mellissa C. Gorham, wife of Charles Charles A. Gorham, east 40 feet of lot 21, block B, Golden Gate Homestead.

Building Notes.

F. E. Connors has let a contract for a \$3000 residence on the corner of Milvia and Center street. T. H. Gilbert is the contractor.

Kidder & Cooper are erecting a couple of cottages on Dwight way.

J. Bose has let a contract to F. Estey, to build him a residence on Dwight way and Benevue avenue, to cost \$3000.

H. E. Thomas is building a residence on College way that will cost \$2600.

Takes Arms to Hawaii.

TEGUCIGALPA (Honduras), July 4.—A suspicious brig cruising off Amalpa was thought to have on board an expedition organized to aid ex-President Vasquez. Investigation was made and it was found the vessel came from California, took on arms from a steamer off the coast of Mexico, and to throw spies off the scent, went to Amalpa. She will go to Hawaii, being chartered in the interest of the ex-Queen.

Fly the Stars and Stripes.

VIENNA, July 4.—The American flag floated proudly today over the United States Embassy and Consulate General, as well as over a number of American business houses and private residences occupied by citizens of the United States.

BERLIN, July 4.—Many American houses in this city and the suburbs flew the Stars and Stripes today in honor of the Fourth of July, and there were a number of quiet celebrations of the day. Flags were also placed over the United States Embassy and Consulate General, and at a dinner this evening patriotic orations were delivered.

MADRID, July 4.—The American flag was hoisted at an early hour this morning over the United States Legation and Consulate and a number of American visitors called during the day.

ROME, July 4.—"Old Glory" was flung to the breeze today over the American Embassy and Consulate General and a number of the hotels having American guests also displayed the Stars and Stripes. The American colony met at a banquet this evening.

O. G. May has been appointed Humane Agent at Berkeley, and will promptly investigate all cases of cruelty to children or animals.

FOR SALE

Draught and Carriage Horses.

Can be seen at water company's yard on University avenue, below Shattuck, Friday and Saturday, July 5th and 6th. 64 4t

More Water For University Ave.

Complaint is made at the west end of town that University avenue does not get enough water on to hold it down. Probably the same amount is sprinkled at the lower end as at the upper end but the former needs much more from the fact that as a rule the trade winds blow very strong from the bay up the avenue particularly until one gets to San Pablo avenue going east. Here a slight deviation in the course of University avenue protects the street from the wind and it also loses some of its force.

In consequence of the strong force of the wind the dampness soon dries out and the dust is blown away in clouds. During the last week it has been particularly noticeable. At times the flying dirt almost blinds one. Some arrangement should be made to fasten this real estate where it now is or the property owners will be at the expense of macadamizing it again.

Not Committed.

Some years ago when the University town had got far enough along to have a charter of its own so that money could be collected from the people and spent by the Trustees, this body of governors employed a man to expert books which were suspected not to have been kept correctly, otherwise there was no need of the expert.

This expert on one of the holidays of the year so far forgot himself when in the town marshal's office as to make a nuisance of himself, whereat the public officer waxed wroth and took the nuisance before a Judge who had just been appointed, but was a man who snuffed the law from afar.

When the Marshal, who was of a legal term of mind, asked his Honor to commit the nuisance the Judge replied that he could not. Why, was the query of the Marshal. Because, said the Court, it is against the law to commit a nuisance.

The fireworks on Lake Merritt in Oakland last evening were a great disappointment to those who crowded the banks of the lake. It was not the fault of the committee, however, but the fault of the company that was furnishing the supplies, as through carelessness they allowed the greater part of the fireworks on both barges to catch fire and explode. The committee states, however, that the fireworks on the Lake on the 9th of September will be very fine.

The Board of Trustees will meet this evening and among other business that comes before the meeting they will probably investigate the matter of the Advocate's collecting for tax receipts before the same were delivered, and also to see whether perjury was not committed when the bill was sworn to as a true and just bill, and also endeavor to find out who forged Mr. Squire's name to the bill stating that it was correct.

Every summer the town has expended from \$1000 to \$1200 cleaning the weeds from the gutters. This year the Board of Trustees will try to avoid this expense, and to that end will enact an ordinance making it the duty of the owners of property to remove grass and weeds from sidewalks and gutters in front of their premises.

The Rev. Anna Shaw fooled the people of Oakland yesterday. She had promised to be the orator of the day, but she failed to come to Oakland and was not ladylike enough to telegraph the committee of her inability to attend if that is what her excuse will be.

Work on the extension of the concrete culvert in Strawberry creek, across Oxford street into the University grounds, will be started next week. C. A. Miller has the contract from the property-holders involved, including the University.

Mrs. John Wright is reported as being quite ill.

THE FOURTH

How the Day Passed in Berkeley.

Death of Herman Whitney.

Charged With Assault to Murder

Grand Ball at Landegren's Hall To- morrow Evening For the Ben- efit of Louis Gill—Other Interesting News.

The Fourth in Berkeley.

With the firing of crackers and bombs and the spreading to the breeze the beautiful American flag at the dawn of day, the 4th of July was duly welcomed in Berkeley.

The sun did not rise in a clear sky. Heavy clouds floated in the air and a southeasterly breeze gave strong indications of coming rain. Occasionally the wind would veer around toward the west and then the air would lighten up as if it was going to clear off. Soon however the state of the atmosphere would resume its early condition, and later on in the day there was a heavy mist fell which threw a gloom over those who were expecting to have a good view of the fireworks in the evening.

As early as 9 o'clock in the morning the cars, both steam and electric began to fill up with passengers for San Francisco and Oakland, and by 10:30 o'clock the town seemed to be apparently deserted, although for a couple hours later all of the cars went out of the town well filled.

During the day the rapid firing of fire crackers by the Chinese and the desultory firing of a few crackers or a single bomb by a young American could be heard and that was all the noise one could hear.

Now and then two or three young men or a couple of young ladies accompanied by an escort would pass through the town on bicycles.

The hills were dotted here and there with small picnic parties who had hied themselves away from the noise and bustle of the city to have a day of quiet and enjoyment.

Flags were displayed from all public buildings of the town and from many private residences. Many places were decorated in various, but all with the idea of making the National colors prominent.

The dampness of the atmosphere in the afternoon drove the picknickers from the hills and the out-of-town visitors back to Berkeley again.

In the early part of the evening a large number of people went to Oakland to take a look at the fireworks which later on were displayed upon Lake Merritt. With the exception of a few rockets and blue lights, the brilliant piece of fire works was that which took place a little after 9 o'clock in

the evening when the grass, north of La Loma Park got on fire and illuminated the fog which was hovering over the hills in a most lurid and beautiful manner.

The only accidents which have come to notice are those where some young boys got powder blown into their faces. No fire alarm was given during the day or evening and the Fourth of July patrol walked his rounds with the hourly cry "its o'clock and all is well."

Death of Herman Whitney.

Yesterday morning Herman Whitney who was an employee of W. F. Boothley who resides at the corner of Dana street and Bancroft way, got up and did his chores and then went to Oakland and witnessed the parade. When the parade was over he returned home and not feeling very well ate some green apples because they were sour. A short time afterwards he was found dead by his employer.

The Coroner was notified and he at once came out and removed the body to the Morgue. The deceased was a Canadian and was well liked by those who knew him.

Everybody Turn Out.

The floor of Landegren's Hall has just been placed in excellent shape for dances and the first dance will take place tomorrow evening for the benefit of Louis Gill, who was so badly injured some weeks ago by being struck by a railroad train.

The young man is well known in West Berkeley where he has spent a great deal of money. He was always willing to buy a ticket to help along any other person who needed help. He is now in that condition himself and it is hoped that Landegren's Hall will be packed tomorrow evening.

San Francisco—Past, Present, Future.

There was a time and it was not so many years ago either, when the only celebration on the 4th of July took place in San Francisco. That has been changed never to come back again. This year the day was honored in many of the large and growing towns of the State to an extent that was equal to that formerly carried out in the city by the Golden Gate. In either the county seat or one of the large towns of the county there were parades, orations and fireworks this year. Each section instead of going abroad to spend that money which had been laid by for this particular occasion was circulated about home where it would do the most good.

This is the right thing and the whole State is swung into that line of action. Each State is trying to live, move and have a being within itself. Each county will soon follow and the cities and towns will fall in. When there is a culmination to this there will be an idea get abroad that the United States as a nation can do the something and the evolution to make it self-sustaining will come naturally.

The growth of California is increasing in a good ratio, and soon there will be inland cities larger than San Francisco was generally considered twenty years ago. While the great city will always make the country pay tribute to it there will never again be the supremacy which it has heretofore carried. The growth of other places on the Coast will detract from it. San Francisco will have to make the best of this and it will never do for her people to be idle and let the grass grow in the streets or she will soon show signs of incipient decay.

For Assault to Murder.

James Parrott, pressman for the Oakland Enquirer, living at 64 Sr 1 Pablo avenue, sat in his window patriotically shooting a loaded revolver at the sky. After a while he grew careless and shot into the street, and one of his bullets struck Mrs. M. A. Clover in the head, inflicting, fortunately, only a scalp wound. She was taken to her home at 1528 Alameda avenue and Parrott was locked up on a charge of assault to murder.

The driver of a butcher wagon belonging to A. Miggie of Golden Gate was arrested this morning at Lorin by Deputy Marshal Kerns for peddling meat without a license. Miggie had a solicitor's license but Judge Lord held that it would not allow him to peddle.

GAZETTELETS.

Wanted—Young girl 14 or 15 years of age to take care of child, \$8.00 a month. Inquire at Fonzo's Cafe. 65

No less than three people celebrated the Fourth of July yesterday by committing suicide.

There were no fires in Berkeley yesterday although there were a great many fire crackers shot off.

Berkeley was well represented in Oakland yesterday, both during the day and in the evening.

A. R. Frame and B. F. Bergen Jr. had some words a day or two ago which may lead to some trouble.

In three out of every four exchanges of the date of July 3d we find the line "Tomorrow the eagle will scream"

The rain which has been threatening for the past week, arrived yesterday afternoon just at the conclusion of the parade. It did no harm however.

Miss Bessie Hall, a very handsome young lady, was the Goddess of Liberty yesterday. With her head on a \$20 piece a man would never want to spend it.

A fresh southwest wind has been blowing today and heavy clouds are skirting the horizon, which leads one to believe that more rain is liable to fall.

Dan Lamont, without whom Grover Cleveland would be lost, and who is also Secretary of War, passed through West Berkeley this morning.

On Monday night last there was a drill of Company F of the Fifth Regiment at the Armory in Oakland. On this occasion Moses Unda took the prize for the best drilling.

In 1893 the employees of the Calumet and Hecla Mining Company, numbering about 3500 men, had their wages cut down 10 per cent. A restoration of this amount was made on the first instant.

The Board of Trustees meet in regular session this evening. A number of important ordinances will be introduced and considerable street work will be started.

It is probable that a new license ordinance governing the business houses, laundries, drummers, peddlers, etc., will be introduced at the Board meeting tonight.

On account of the sickness of Mr. Garrity, attorney for the defense in the Frank O'Brien case, a postponement was made at Town Attorney Hayne's request until tomorrow (Saturday) at 2 o'clock p. m. in Justice Lord's Court.

The Watsonville Register of the 4th of July comes to hand printed in red ink on one side. It shows that the manager is bound to keep up with the procession. The other side is printed in blue and the paper being white, the trio of red white and blue is ingeniously brought to view.

By some unaccountable manner the name of Captain H. S. Eastham, one of the oldest veteran men-of-war's men, did not appear as invited to go in line at Oakland. The captain is an old resident of Berkeley and was with Commodore Rogers when the ports of Japan were opened to the United States. He arrived from Japan in 1855 and received an honorable discharge from the Naval Service that year at the Mare Island Navy Yard.

William Peterson, a young man in the employ of Stork, the butcher at West Berkeley, went into Oakland yesterday to take part in the parade of mounted horsemen. He got along all right until he reached Seventh and Broadway, when his horse slipped and fell and Peterson's left leg was caught beneath the horse and was badly fractured. He was taken to the Receiving Hospital, where medical assistance was given him.

TOWN OFFICIAL PAPER.

FRIDAY, JULY 5 1895

THE CELEBRATION.

Yesterday was a great day for California as well as for the whole United States. Every town in California celebrated Independence Day in a thoroughly patriotic manner. The different towns in Alameda county celebrated at Oakland and it was a celebration that will long live in the memory of the people of this county, as the beginning of a new era in Oakland and in Alameda county. Every business man and every citizen constituted himself a committee of one to make the day a perfect success and how well they succeeded the thousands of people who witnessed the parade and decorations, answers the question. On every side one could hear expressions of approval, such as Oakland has done herself proud. This is indeed new Oakland and now Oakland has made a start for business and population and she is going to get there.

The decorations on the different buildings were costly and handsome and special mention should be made of the Central Bank Building, the Oakland Gas Light Company and Jonas Bros. Everybody seemed to be full of Fourth of July spirit and tried to outdo his neighbor in the way of decorating. We hope that next year Berkeley may be able to celebrate in a way that will bring thousands of people here, who will later on buy property and build homes here.

For many years all the members of the County Board of Education have been residents of Oakland, and as each year rolled around they were either re-appointed or some other Oaklander was chosen. The different sections of the county presented candidates but they never were considered. Some months ago there was a vacancy in the Board, and Supervisor Johnson, who is the only Supervisor who has ever done justice to Berkeley as its representative, put Professor Waterman in nomination, and after quite a fight succeeded in having him elected; and when it became necessary to reelect him a few days ago, Mr. Johnson stood by him firmly, and although he had a hard fight, he succeeded in having Professor Waterman reelected, much to the satisfaction of the people of Berkeley. While we feel highly complimented that a Berkeley Educator has been appointed on the Board, it is pleasant to have the different county papers comment so favorably upon it. If there were a few more supervisors like Mr. Johnson on the Board Oakland would not be able to hog everything, and the different parts of the county would get what belongs to them.

It seems almost incredible that Colorado should have given up its intention of holding a great mining exposition. The affair has been thoroughly advertised and many States were preparing to make exhibits. The parties who had the project in hand had \$300,000 in their treasury and as much more pledged. The committee, it seems, wanted an appropriation from the City of Denver, but were unable to get it unless they divided a portion of it with the councilmen. This they refused to do and threw up the whole business of having a mining exposition. It seems very funny that Colorado has not got vim enough to carry out the plans for the exposition. California, with but \$300,000 for a starter, built and maintained for a period of six months, the Midwinter Fair. The managers of this fair did not receive one dollar from the State or the City Treasury yet they maintained the fair for six months and came out with a good sum of money to its credit. Colorado can do this and it ought to, for the time is now ripe for a mining exposition. People all over the country are now taking an interest in mines

and capital is anxious and willing to invest and an exposition such as was intended in Denver would be visited by thousands who are seeking to invest their capital in mines. Every mining State would have large exhibits and intending purchasers could take their choice of the mines in any of the States represented. It is to be hoped that the Colorado people will reconsider their idea of abandoning the exposition and will go to work in earnest and get it started.

INDEPENDENCE DAY was celebrated in New York yesterday by Tammany and while they could not as they have usually done, celebrate a Democratic victory, they were very enthusiastic and placed the blame on others. The speakers were not over pleasant in their remarks in reference to Mr. Cleveland and his administration. The Tammanyites favored the annexation of the Sandwich Islands to the United States and in fact they want the United States to gobble up all the territory it can on the Western Hemisphere. The audience was not as large as in former years, but this is accounted for by the fact that a number of the members are in exile until Tammany once more gets control of New York and others are doing time in Sing Sing.

JAPAN is once more angry with China. This time it is because the Emperor of China has been officially acknowledging the services of France and Russia, in preventing Japan from taking the province of Manchuria. The Pekin Government has also of fended Japan by proposing that the new Japanese envoy shall not proceed to the Capital until after he has settled with Li Hing Chang at Tientsin, the question of giving back the unclaimed territory. The Japanese Government has notified China that no business of any sort will be transacted out of the regular order or before the legations are reopened at Pekin and Tokio.

DR. A. A. MINER, an eminent divine who preached for the Universalist Society at San Francisco some twenty years ago, died recently in Boston. He was a colleague of the Rev. Hosea Ballou and succeeded the Rev. E. H. Chapin in 1848 at Boston. A man of great ability, he was an unceasing worker for the good of mankind. At his death he was about 80 years of age. His wife survives him.

PROFESSOR MARK HARRINGTON, Chief of the Weather Bureau at Washington, D. C., has been removed by President Cleveland "because of personal interests."

Found Adrift--The buntly sailboat Emelie; found between Judson Powder Works and West Berkeley wharf. Painted blue and white. Owner can have the same by paying for this advertisement and other expenses. Apply at Sam Fisher's billiard parlors, University avenue near Fifth street.

The figure is a map titled "Fig. 6. Spatial distribution of the number of cases per 100,000 population in 2009". The map displays several geographical regions, each labeled with a number representing the number of cases per 100,000 population. The regions and their values are: 1 (top left), 2 (top center), 3 (top right), 4 (middle left), 5 (middle center), 6 (middle right), 7 (bottom left), 8 (bottom center), 9 (bottom right), 10 (far bottom left), 11 (far bottom center), and 12 (far bottom right). The map uses different shades of gray to represent these values.

Mose Unda of West Berkeley, a member of Co. F, Fifth Regiment, N. G. C. won the company medal for being the best drilled man in the company.

Mr. and Mrs. Albert Griffith, who have been the guests of Mrs. J. W. Brown for the past week, returned to their home in St. Helena, Napa Co. this afternoon.

Several Berkeley boys had their faces and eyes so badly burned by the explosion of powder yesterday that the attendance of a physician was necessary to pick the powder out.

The Texas miss who hanged her lover from a tree was either an unusual girl or unusually jealous on this occasion. It is safe to predict that hereafter suitors will approach her with diffidence.

Mrs. Acheson has presented a protest against granting W. E. Sell and General Theodore Wagner a franchise for a street railroad to run in front of her property on University avenue. She owns 500 feet of frontage between Shattuck avenue and Oxford street.

NOTICE OF APPLICATION OF DISCHARGE.

IN THE SUPERIOR COURT OF THE County of Alameda, State of California.
In the matter of George M. Gropp, an insolvent debtor.
Notice is hereby given to all the creditors of George M. Gropp, the above-named insolvent, who have proved their debts, that said insolvent has this day applied to this Court for a discharge from his debts, and that the 5th day of August, A. D. 1895, at 10 o'clock A. M., at the Court Room of said Court, at Oakland, in the County of Alameda, has been fixed as the time and place for said creditors to appear and show cause, if any they have, why said insolvent's application should not be granted, and he be discharged from all his debts, in accordance with the Statutes in such cases made and provided.
Witness my hand and the Seal of said Court this 28th day of June, 1895.

IF YOU DON'T DRINK
BROWN'S CELERY PHOSPHATE
YOU'RE MISSING A GOOD THING.

It's the most delicious and healthful beverage in the market. It combines the valuable medical properties of Fresh Celery with Acid Phosphates of Iron, Lime, Magnesia and Soda.

Brown's Celery Phosphate
IS A MOST WONDERFUL
Nerve, Blood and Brain Tonic.
IS ESPECIALLY RECOMMENDED FOR
MENTAL AND PHYSICAL EXHAUSTION, INDIGESTION, HEADACHE, WAKEFULNESS, IMPAIRED VITALITY, ETC.
It is in the form of a concentrated syrup, and is prepared for use by simply adding one or two table-spoonfuls to a glass of either hot, cold or carbonated water. Taken with liquor it imparts a delightful flavor and prevents the bad effects of alcoholic stimulants.

MANUFACTURED ONLY BY

THE FIRST LOCOMOTIVE.
It Was Built by Oliver Evans, Who Couldn't Lay Up Money.
The real inventor of the locomotive never realized a cent from his invention. His name was Oliver Evans. He was born in Delaware in 1756 and spent all his life perfecting inventions which were destined to bring him nothing but more poverty. He was the original inventor of the high pressure engine used in locomotives, the only kind that could be employed to advantage in this form of transportation, but realized nothing for his idea.
His application of the notion to both land and water power was somewhat novel.
In 1804 the municipality of Philadelphia called for bids for the dredging of the river and the cleaning of the docks. Evans put in a bid lower than any of his competitors, and when it was accepted determined to build a steamboat to do the work.
He fitted out a scow with a steam engine, building both the engine and the scow in his own workshop.
When the boat was ready to be launched, Evans determined to give the people of Philadelphia an object lesson in mechanics, so he put the boat on wheels, fitted up a push wheel behind, set his engine to work and propelled the boat through the streets to the river in the midst of an open mouthed throng, not a few of whom had a dim idea that he ought to be arrested for witchcraft.
When the boat reached the bank of the river, the wheels and axles were taken off, the craft was launched, fitted out with other wheels and made to do the work of dredging the harbor.
So far as the invention of mechanical devices went, Evans had a splendid genius, but when dollars and cents came up for consideration he was a mere child, and even allowed himself to be cheated out of the money that was due him for cleaning the Philadelphia harbor with his new fangled steamboat. — St. Louis Globe-Democrat.

AMENDED HER LIST.
She Now Declares That Lawyers Come Under the Head of Nuisances.
A few evenings ago a lawyer living in West Philadelphia was visited at his residence by an indignant woman, who declared that she had come for legal advice, and in a businesslike manner deposited on his table a \$5 note as a retaining fee. After pocketing the money the man of law politely requested her to proceed with her statement. She said she was continually afflicted with a series of nuisances which she desired the lawyer to have abolished.
She was annoyed by a neighbor on one side, she said, who is a music teacher and trainer of the voice. The constant thumping on the piano and the discordant notes of the vocal students made her very nervous. On the other side the neighbor kept chickens, which awoke her early in the morning by their crowing and annoyed her during the day by flying over the fence and invading her premises. Day and night she was made nervous by the noise of the trolley cars passing her door, organ grinders and peddlers made her life miserable, hucksters added to her misery by calling their wares, and she wanted to know what action she must take in order to be made free of such nuisances.
The lawyer reflected a few moments with compressed brow, and then said, "Madam, you are decidedly unfortunate, and my advice to you is that you go to a real estate agent and engage him to secure for you a nice comfortable dwelling in the suburbs of some country village, where the nearest neighbor is a quarter of a mile away, organ grinders unknown, trolley cars unheard of, and where hucksters and peddlers do not come." Realizing that she was \$5 out, the woman replied, "I'll do as you say and include among the others that no lawyers must exist in the same county." — Philadelphia Record.

Profit In Soda Fountains.
A New Orleans man named May told me that his yearly profits from his soda fountain were \$30,000. One Sanders, a Detroit, who owns an \$8,000 fountain, the finest displayed at the World's fair, does a rushing business, and his sales run from \$800 to \$700 per day the year round. In Buffalo Stoddard Bros. employ 30 girls to handle ice cream soda, and it takes 8,000 glasses to accommodate their trade. They sell it at 5 cents a glass, and there is a net profit of just 100 per cent. In Boston Thompson's Spa, the greatest soda resort at the Hub, easily clears for its owner \$50,000 a year. There are in the United States 100,000 fountains in operation, and manufacturers are getting more orders now than they ever got before. — Washington Post.

Begonias For Garden Decoration.
It is now getting to be well understood that many plants that it was thought could only be grown under glass do remarkably well in our climate under summer shade. The begonia is especially suited to this summer work. The writer came across a little piece of rockwork constructed under the shade of some large trees, in which the whole mass of rocks was completely covered with species of begonia. Every night, or nearly every night, water was showered on them through a hose from a hydrant. Nothing could exceed the beauty of this mass. — Meehan's Monthly.
